

# Calibration Certificate

Kind of Equipment	SMARTOTDR 100A 1310/1550NM - PC	This calibration certificate confirms that all measurements lie within the limit values stated in the product-specific calibration procedure.
Type/Model no.	E126A	The calibration results are traceable to National Standards and NIST standards which are consistent with the recommendations of the General Conference on Weights and Measures (CGPM), or to standards derived from natural constants, or to standards relying on ratio measurements with self-calibrating technique for their calibration. If a National Standard is not available, the result is traceable to the Reference Standard of Viavi Solutions France S.A.S.
Serial number	9401	
Manufacturer	Viavi Solutions	
Calibration Report no. and date	0917BO9401	
Confirmation Interval	One Year	
Ambient temperature /relative humidity	25°C +/-5 50% +/-30	
		The stated confirmation interval shall be regarded as a recommendation. The real definition of the confirmation interval should be made by the user. The type of application and the environmental conditions should be taken into account.
